International Studies is an interdisciplinary program that addresses the principal issues confronting today's globalizing world, drawing ideas, faculty and courses from a wide range of disciplines. Majors choose a primary and secondary concentration that will allow them to become familiar with global issues and problems related to culture and the arts, politics and society, international relations, and global political economy.

To further this knowledge and help develop language skills, students will be encouraged to study and/or engage in service abroad. International Studies prepares students for careers in international organizations, internationally focused government and news agencies, non-profits, schools and businesses.
