

THEATER, BA

Department Chair: Ed Simone, Ph.D.

The bachelor of arts with a major in theater offers a comprehensive undergraduate program in theater production, history, texts, and applied on-stage and technical experience and training within the university's liberal arts context.

Undergraduate theater majors have, of course, found success in theater and related media. In addition, the theater major can be applied to advanced study and/or careers in law, many areas of education and education administration, marketing, advertising, public relations, politics, publishing, broadcast journalism, film and television performance and production, cultural anthropology, history, psychology and various therapies, music management, performance and composition, arts management and administration, visual art, internet media production, design and architecture, the hospitality and gaming industries, and many others.

SBU's theater major also offers a strong foundation for graduate study either in the applied context of the M.F.A. in acting, design, directing, dramaturgy, or another area of theater; or the M.A., either for its own sake or as preparation for advanced study leading to the Ph.D.

Although you don't need to audition to major in theater at SBU, theater majors are required to complete a minimum of six credits of SBU Theater production (THTR-299), in a combination of on-stage and design/technical work.

The major in theater wraps up with a semester-long capstone project in theater performance, design, or research (THTR-499) guided by the theater faculty and tailored to the individual student's interests. Recent capstones have included original scripts, directing, acting and designs.
