International Student Advisement

The International Student Services Office provides support for international students from admission through graduation. This includes providing guidance for obtaining F-1 visas, maintaining their status throughout their tenure at SBU per USCIS regulations, and assisting them in post-graduate work authorization to gain experience in their field of study. International Student Services also provides one-on-one support for their academic and non-academic needs to help them assimilate and gain success during their time at St. Bonaventure.
